

VOLUMETRIC AUTOMATIC DOSING SYSTEM TO PREPARE SOLUTIONS-EMULSIONS AT RIGOROUSLY CONSTANT CONCENTRATION

ADVANTAGES

- **COMPLETE AND INDEPENDENT EQUIPMENT:** the equipment includes the dosing system + storage tank + pumping system.
- **Automatic** production of **rigorously constant concentration** solution.
- Due to its **reliability and robustness** is the equipment that requires **less maintenance** in the market.
- **Easily programmable** through a microprocessor.
- Constant production of **fresh solution**. Avoids bacterial contamination
- **Real time information.**
- **Fast and easy set up.**
- **Easy to use.**

DID YOU EVER CONSIDER HOW COSTLY IT IS TO USE A NOT RELIABLE AND ROBUST DOSING SYSTEM

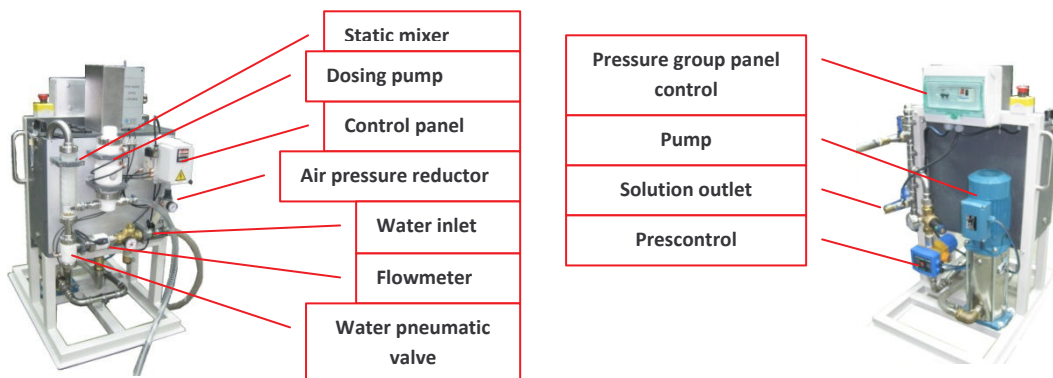

HIGH COSTS AND WORRIES

REDUCE COSTS AND IMPROVE PROCESSES WITH POLIMAT CE EL MF

POLIMAT CE EL MF is aimed to work independently and includes: dosing system, storage tank and pump system. Besides is completely moveable. Due to years of experience and improvements **POLIMAT CE EL MF** answers to the total needs of the customer and has become a leader in the market.

POLIMAT CE EL MF is capable of preparing solutions from many different hidrosoluble concentrates coolants, lubricants, polielectrolites, antifoams, protectives, detergents, cooling

TECHNICAL DATA

FLOW	100-3000 Liters/Hour
CONCENTRATION	0-2%,0-5%,0-10%,0-20%,0-30%
PRECISION	0,1%
WATER PRESSURE INLET	0,5-5Bar
WATER INLET DIAMETER	3/4"
COMPRESSED AIR PRESSURE	1/4" (4-7Bar)
ELECTRIC PUMP	CALPEDA, hasta 9 bar.
PRESSCONTROL	IDROMAT 3-22
ELECTRIC SOURCE	220 V
SIZE	1200x500x500mm
WEIGHT	50Kg
