

VOLUMETRIC AUTOMATIC DOSING SYSTEM TO PREPARE
SOLUTIONS-EMULSIONS AT RIGOROUSLY CONSTANT
CONCENTRATION

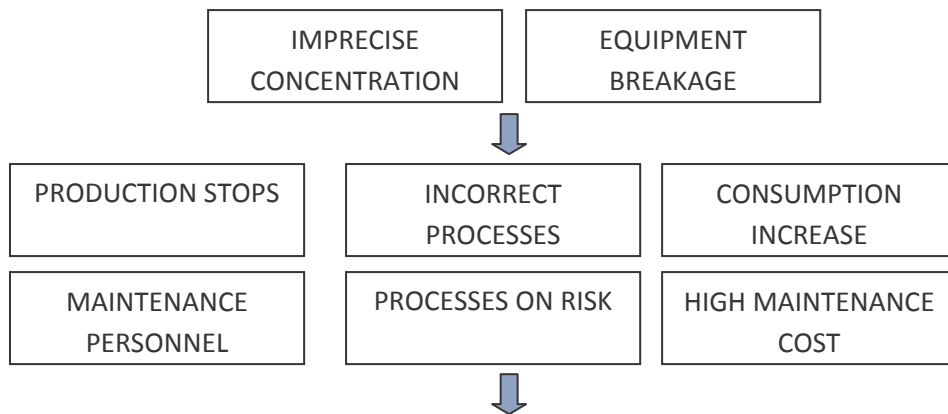

ADVANTAGES

- **Automatic production of rigorously constant concentration solution.**
- Due to its **reliability and robustness** is the equipment that requires **less maintenance** in the market.
- **Easily programmable** through a microprocessor.
- **Instant concentration change.**
- **Real time information:** solution flow produced, total amount of liters produced.
- Constant production of **fresh solution**. Avoids bacterial contamination
- **Fast and easy set up**
- **Easy to use**

DID YOU EVER CONSIDER HOW COSTLY IT IS TO USE A NOT RELIABLE AND ROBUST DOSING SYSTEM

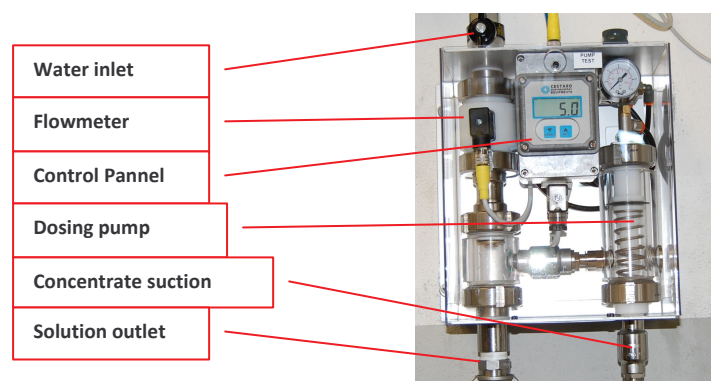

HIGH COSTS AND WORRIES

REDUCE COSTS AND IMPROVE PROCESSES WITH SMARTMIX

SMARTMIX is the simplest and most compact equipment of our dilution equipment range . Due to years of experience and improvement SMARTMIX answers to the total needs of the customer and has become a leader in the market

SMARTMIX is capable of preparing solutions from many different hidrosoluble concentrates coolants, lubricants, polielectrolites, antifoams, protectives, detergents, cooling agents, etc.

TECHNICAL DATA

TECHNICAL DATA

FLOW	100-3000 Liters/Hour
CONCENTRATION	0-10%
PRECISION	0,1%
WATER PRESSURE INLET	0,5-5Bar
WATER INLET DIAMETER	¾"
CONCENTRATE SUCTION PIPE DIAMETER	½" (flexible tube)
COMPRESSED AIRE INLET	¼" (4-7Bar)
MAXIMUM SUCTION HEIGHT	2 m
ELECTRIC SOURCE	24 V d.c.
SIZE	250x250x150mm
WEIGHT	6Kg
